Yared Bitewlign

Full-Stack - Mobile Developer

yaredbitewlign@gmail.com - + Addis Ababa, Ethiopia - github.com/yared3214 - linkedin.com/in/yared-bitewlign-6764ab263

SUMMARY

Full-stack and mobile developer with computer science foundations and a year of post-graduate experience shipping end-to-end products. Strongest in React Native for cross-platform mobile and Next.js for production web, with backend work across Supabase, Firebase and PostgreSQL - role-based access, offline-first storage and secure data handling.

SKILLS

Mobile: React Native, Expo, SQLite, Zustand, offline-first storage
Web: React, Next.js, TypeScript, Tailwind CSS, Shadcn UI, Framer Motion
Backend: Supabase, Firebase, PostgreSQL, REST APIs, authentication, role-based access, Zod
Tooling: Git & GitHub, Vercel, Nodemailer, responsive and accessible UI

SELECTED PROJECTS

Skin Health Companion - patient mobile app (React Native, Firebase, Supabase)
Dermatologist-approved resources, patient records and verified experts, with role-based access and secure document uploads.

Ethio Stock Link Lite - offline-first trading app (React Native, SQLite)
Local portfolio, timestamped cached quotes, and queued buy, sell and deposit orders with explicit pending states.

FastX Delivery - logistics console (React, Tailwind CSS)
Order board, courier dispatch and a customer-readable tracking timeline on one responsive dashboard.

Ethiopian Artisan Marketplace - e-commerce (Next.js, Zod, Nodemailer)
Maker-led product pages, a validated cart and checkout, and real order confirmation email for global buyers.

EDUCATION & CONTINUOUS LEARNING

Computer Science Foundations - Academic study - data structures, databases, networking
Continuous learning - Self-directed study in mobile and full-stack engineering
